NEW SPECIAL EVENT
Bruce Lipton
The Science of Personal
Transformation
Sunday
4-6pm
Room 5
Gen. Adm. \$39
VIP \$59

Frontier science reveals civilization is poised on the threshold of a major evolutionary event; a new world is emerging right before our eyes. In the face of global crises in health, home and heart, advances in science are creating a genuine revolution in thought and understanding, one so radical that it can change the world. From an evolutionary standpoint, we are exactly where we need to be. We are surrounded by the proof that we are poised on the threshold of a major evolutionary event, the emergence of a new, giant super-organism called Humanity.

A “new” biology takes us beyond economic collapse, climate change, religious and racial extremes, and the impending 6th mass extinction event, to reveal that such chaos is a natural step in an unfolding process, rather than the tragic end to a broken planet.

Cell biologist and bestselling author Bruce H. Lipton presents new science to help navigate this turbulent period in our planet’s history.

Bruce’s dynamic multimedia presentation provides information, inspiration, and an invitation to participate in the greatest adventure in human history—Conscious Evolution! Understanding how consciousness and programming interface our genes and behavior, empowers us to evolve from passive victims to responsible co-creators. The lecture offers a bold and hopeful vision of the next “holistic” stage of human civilization and how each of us can fully participate in creating the world to come.

Bruce H. Lipton, Ph.D., cell biologist and award-winning lecturer, is an internationally recognized leader in the “new” biology. Bruce, recipient of Japan’s prestigious Goi Peace Award, is the author of the bestselling The Biology of Belief, The Honeymoon Effect, and co-author with Steve Bhaerman of Spontaneous Evolution.

WANTED: All people of goodwill

**To aid in the rescue of the human family as crises mount on every front.
No prior experience needed; only the desire to help in the most effective way.**

Since earliest times, humanity has been guided and inspired by a group of highly evolved individuals most often called the Masters of Wisdom. Having gone ahead of us in evolution, they are practical experts in every field of life. They are in fact the most **powerful forces** on Earth—the **Forces of Light**.

Led by **Maitreya, the World Teacher**, they have long worked ceaselessly from behind the scenes to ease tensions and inspire right action. **But now is the time for them to work openly by our side to help us create a new world that works for everyone.** There are many complex factors governing Maitreya's open appearance in the world. But when the Masters know we truly stand for peace, justice, the environment, and sharing the world's resources, and are ready to do the needed work, they will be able to step forward without infringing our free will.

How to send that message and join the network of Light

- Pray/meditate for peace, justice, freedom, and sharing the world's resources. Ask for Divine help.
- Spread this message far and wide by every means at your disposal—to everyone you know and even those you don't know who have wide influence. Every person of goodwill is needed.
- Get involved in any activities that support the peaceful resolution of conflicts, economic and social justice, environmental restoration, and freedom for all people.
- Keep your thoughts positive and avoid assigning blame, which only increases the darkness.

This is how *People Power* wins the day
